

180° FISH-EYE

Magnet Mount Conversion Lens for iPhone 4®

MAGNET MOUNT CONVERSION LENS

This exclusive magnetic mount system was designed by Toda Seiko of Japan. It employs a powerful yet safe-to-iPhone® magnet, used to mount a Digital King conversion lens on the iPhone®. (Patented)

1. Peel off sheet to expose adhesive on the back of the magnetic mount.

2. Place the magnetic mount directly over the iPhone 4® lens. Make sure the magnetic mount does not cover the flash next to the camera.

3. Place a Digital King conversion lens on the magnetic mount.

*iPhone 4® not included.
